ABOUT US

Who We Are

At House of Mercy FS Foundation, we believe that *every person deserves the chance to live with dignity, opportunity, and hope — regardless of their background, circumstance, or challenges.*

Founded on the principles of compassion, justice, and inclusion, we are a registered non-profit organization deeply committed to addressing some of the most pressing social issues facing vulnerable populations today.

We recognize that poverty, disability, lack of education, and social exclusion often trap individuals and families in cycles of hopelessness. Our mission is to break these cycles through practical, holistic, and sustainable interventions that create lasting change.

We serve:

- **Children** who need safe environments, education, and protection from abuse or neglect.
- **Women and girls** who seek empowerment, independence, and protection from gender-based discrimination and violence.
- **Individuals with disabilities** who require inclusion, advocacy, and access to tools that help them live independently.
- **Families in crisis** who are struggling to meet basic needs due to financial hardship, displacement, or unforeseen life challenges.
- **Entire communities** that require sustainable development to create healthy, resilient environments for future generations.

At House of Mercy FS Foundation, we do not simply offer charity we offer **empowerment.** Our programs are designed to equip individuals with knowledge, skills, resources, and opportunities that enable them to transform their own lives and contribute positively to their families and communities.

We operate through:

- Evidence-based programs rooted in local community needs.
- Collaborative partnerships with government, private sector, faith-based organizations, and international agencies.
- A strong team of passionate professionals, volunteers, and advocates dedicated to creating measurable impact.

Every project we implement is a reflection of our firm belief that **true development is people-centered, sustainable, and inclusive**. Our work is not about handouts, but about unlocking potential — restoring dignity, rebuilding broken lives, and helping people stand on their own.
